

KICHLER 12V CAST BRASS ACCENT LIGHT

SKU: 15384CBR  
BBD \$243.75

Kichler's 6" Mini MR16 Accent Fixture in Centennial Brass shines upward to illuminate trees, statuary and textured surfaces for dramatic, attention-getting visuals. Customize color temperature (CCT), beam angle, wattage, and lumen output based on the LED bulb selection. The 12V low voltage drop-in fixtures are compatible with a wide selection of Professional and Contractor Series LED Lamps and are a great economical choice for any design application.

Manufacturer	Kichler
Finish	Centennial Brass

Categories: [Landscape](#), [Lighting](#)

Dimensions	Height: 2.50"   Width: 6.00"
Finish	Centennial Brass
Lamp Included	Not Included
Lamp Type	MR16
Max Watt	35W
Location Rating	Wet
Socket Base	Bi-Pin
Operating Voltage	12 VAC

- Use two or three fixtures to cross-light an object such as a tree or tall structure for 360-degree visual interest.
- The MR16 Bi-Pin socket lamp base is optimized for Kichler LED drop-in lamps, ensuring easy installation and light output selections.
- The fixed socket base allows for easy and secure installation of the lamp inside the fixture housing.
- A flat lens protects the light source and connection points from the outdoor elements.
- A double O-ring securely holds the cowl in position, which prevents glare and helps shield light. Cowl is adjustable/rotating with a thumb screw lock.
- Features a durable, solid, cast brass construction that withstands harsh weather conditions.

- All 12V low voltage drop-in fixtures require a fixture, LED Lamp, low voltage wire and a transformer to operate as a system.
